Abstract

The study will present contributions at several levels: literature and practice. It makes contributions to the literature on relationships between sustainability practices and sustainability report and the regulation and institutionalization of sustainability practices and reporting for SDGs. Also, our study contributes to a better understanding of the role of Iberian Foundations as partners in achieving the Global Goals and their contribution to the effective, responsible and transparent development of institutions for United Nations 2030 Agenda for Sustainable Development.

Keywords

Sustainability, UN SDGs, Iberian foundations, Annual reports, Communication, Accountability
