Journal of Earth Science and Engineering

Volume 3, Number 6, June 2013 (Serial Number 21)

Contents

Hydrology

349 Hydrological Evaluation with SWAT Model and Numerical Weather Prediction for Flash Flood Warning System in Thailand
Wini Wangnooool, Kokkist Pongpai, Thanaporn Suphajee, Kamol P.N. Sakolkian and Ornrapong Vonmarat

Assessment of Groundwater for Heavy Metals in Selected Areas of North Lebanon
Marie Tannous, Joseph Haddad and Magdy Jabbour

Remote Sensing

363 Using Remote Sensing Technologies for the Research of the Transformation of Ecosystems (Case Study: Lake Sevan Basin)
Vahagn Maradyan, Shushanik Asmaryan and Tatevik Hovhannisyan

Physical Geography

371 Approaches to Detecting Gene-Environment Interactions in Human Variation Using Genetic Engineering, Remote Sensing and GIS
Sumiko Aono, Kazuhiko Ohashima, Takashi Abe, Takes Tadono, Aya Yamamoto and TomoIzu Igarashi

Space Physics

379 Space Drive Propulsion Principle from the Aspect of Cosmology
Yoshinari Minami

Geography

392 IDE-OTALEX C. The First Crossborder SDI between Portugal and Spain: Background and Development
Teresa Batista, Carmen Caballero, Fernando Ceballos, Cristina Carriço, Júlio Matias, Hugo Lopes, Pedro Vivas White, José Cabezas, Luis Fernández and Carlos Pinto-Gomes
