1. INTRODUCTION

Portugal signed the 1982 United Nations Convention on the Law of the Sea (hereinafter referred to as UNCLOS, or the Convention) on the day it was opened for signature and ratified it on 14th October 1997. The Convention came into force for Portugal on 3rd December of the same year, 30 days after its deposit with the United Nations Secretary-General. The rights of Portugal in respect of the continental shelf that constitutes a natural prolongation of its land territory exist *ipso facto* and *ab initio* by virtue of its sovereignty over its land territory, as reflected in article 77 of UNCLOS.

On 11 May 2009 Portugal delivered its Submission to the Commission on the Limits of the Continental Shelf (hereinafter referred to as the Commission, or CLCS) pursuant to article 76 (8), and Annex II, of UNCLOS in support of the establishment of the outer limits of its continental shelf beyond 200 nautical miles (M) from the baselines from which the breadth of the territorial sea is measured.

The Portuguese Submission results from a significant and continuous national effort in data acquisition and data assembly with the purpose of providing the Commission with adequate material for its consideration. The submission uses all available information and every effort has been made to interpret the data consistently and in accordance with the internationally accepted legal and scientific opinions.

Since 2009, Portugal continued to collect and gather bathymetric, geological and geophysical data to support the Submission to the CLCS. These data are relevant to corroborate the outer limits of the continental shelf of Portugal. Considering the new data, Portugal delivered to the Commission an *Addendum* which includes updated versions of the documents (Main Body and Supporting Documents) comprising the Submission. The update includes new data and information published in peer-reviewed, scientific journals.

Following the request expressed by the Subcommission in its letter reference 2017_08_17_SCPRT_LET_PRT_002 dated 17 August 2017, Portugal submits to the Commission an Amended Executive Summary. This Executive Summary is an integral part of the Portuguese Submission.

2. OUTER LIMITS OF THE EXTENDED CONTINENTAL SHELF

The amended outer limits of the Portuguese extended continental shelf are defined by the fixed points indicated in the list of coordinates contained in Annex 1 of this document, and are represented in Figure 1.

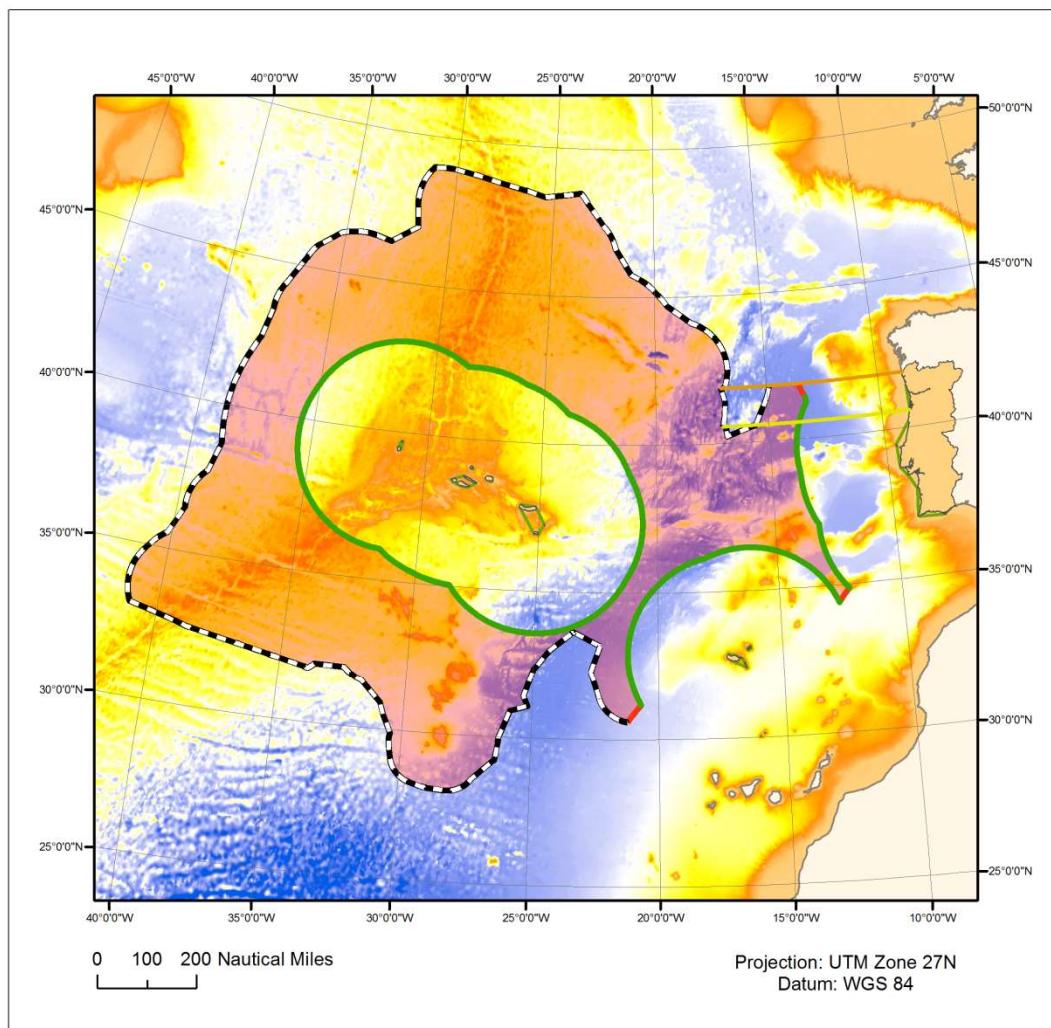

Figure 1 - Map of the Outer Limits of the Continental Shelf of Portugal.

3. REGION BY REGION OVERVIEW OF THE EXTENDED CONTINENTAL SHELF

For convenience of reference and overall organization, the Portuguese Submission is divided in three regions:

- The Western Region;
- The Eastern Region;
- The Galicia Bank Region.

The Western Region comprises the legal continental margin in the area of the Azores Archipelago.

The Eastern Region comprises the legal continental margin in the areas of the Portuguese Mainland and Madeira Archipelago.

The Galicia Bank Region, also referred to as “Area of Common Interest” (ACI) for Portugal and Spain, is located in an area where there is no bilaterally agreed maritime boundary, and comprises the legal continental margin of the northwestern part of the Iberian Peninsula. Portugal and Spain agreed to present their submissions separately for this region, but in a coordinated manner which included common efforts on data acquisition and data sharing, following a common legal and technical solution for their extended continental shelves.

The Northern and Southern limits of the Galicia Bank Region are, respectively, 41° 52' 00" N and 40° 34' 13" N. The eastern and western limits are defined, respectively, by the baselines of both States and by the line situated at a distance of 350 M from those baselines. The outer limits of the Galicia Bank Region continental shelf are represented in Figure 1 and Figure 2.

For the Galicia Bank Region, Portugal did neither collect any new data nor perform any new computations; accordingly, the OECM segment common and agreed by Portugal and Spain and the OLCS contour in the “Area of Common Interest” (ACI) remains as in the 2009 Submission.

Portugal authorises Spain to use the information and technical data related to the ACI relevant to the preparation of its submission to the CLCS. Portugal authorises also the CLCS to use the aforementioned information and technical data for the purpose of evaluating the Spanish submission.

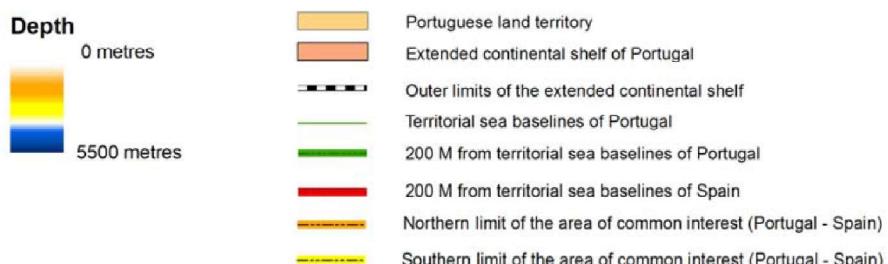

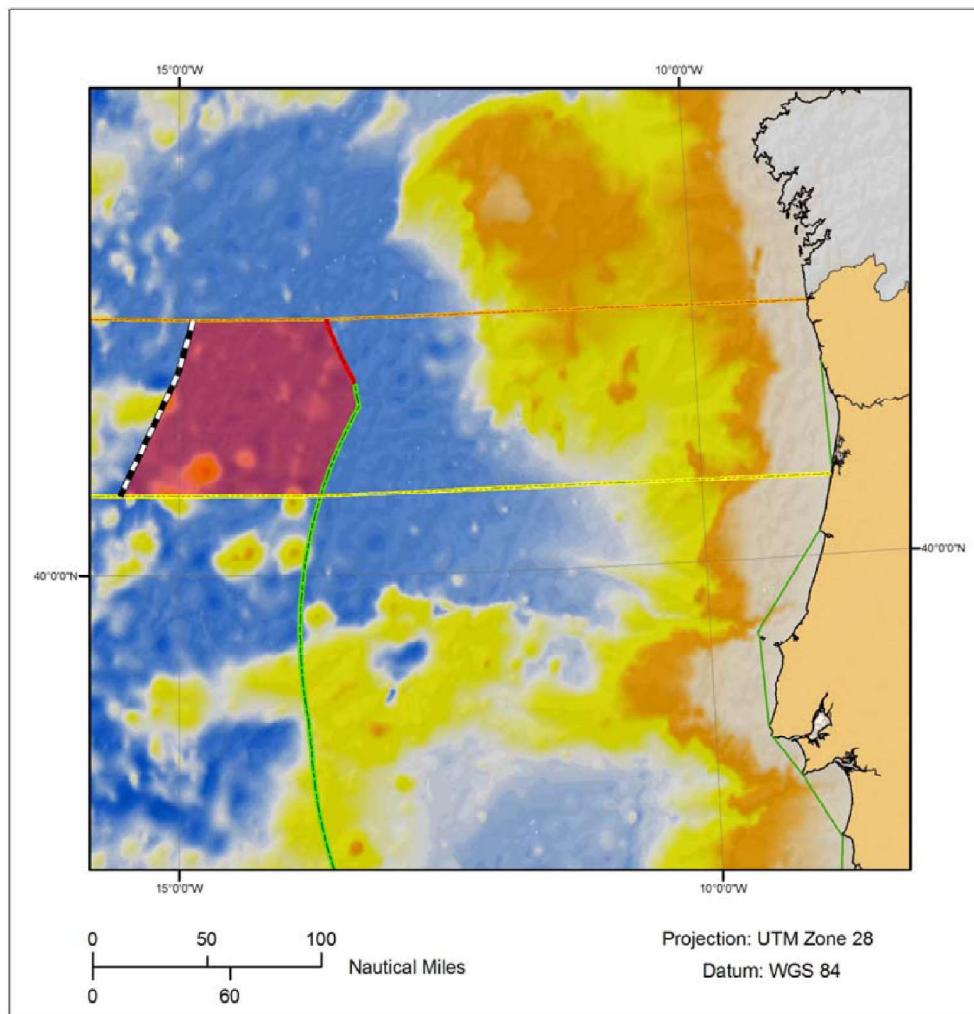

Figure 2 - Map of the Outer Limits of the Continental Shelf in the Galicia Bank Region.

4. PROVISIONS OF ARTICLE 76 INVOKED

The establishment of the outer limits of the Portuguese extended continental shelf has been achieved in accordance with article 76, paragraphs 1 to 7 of the Convention. Each outer limit fixed point of the list of coordinates contained in Annex 1 indicates the sub-item of paragraph 4 (a) that supports the entitlement, the applicable constraint line contained in paragraph 5, if any, and the distance between points.

Portugal also underlines the importance of article 121 (2) of the Convention for the application of article 76, which states that the continental shelf of an island is determined in accordance with the provisions of the Convention applicable to other land territory.

5. COMMISSION MEMBERS WHO PROVIDED ADVICE

Mr. Aldino Campos was part of the EMEPC team that prepared the Portuguese Submission to the CLCS in 2009. Between 2013 and 2016, Mr. Campos was the Head of the EMEPC. Mr. Campos is a member of the Commission since June 2017.

Portugal was assisted in the preparation of its submission by Mr. Fernando Pimentel. Mr. Pimentel was a member of the Commission between 2002 and 2012.

6. ABSENCE OF DISPUTES

Notwithstanding the fact that there are no agreed maritime boundaries between Portugal and Spain and between Portugal and Morocco, there are no unresolved land or maritime disputes with these two States in the sense referred to in Rule 46 and Annex I, of the Rules of Procedure of the Commission (CLCS/40/Rev.1).

The Portuguese Submission, and its consideration and recommendations by the Commission, shall be considered in accordance with article 76, paragraph 10, of the Convention, without prejudice of future delimitation in the area of the Galicia Bank Region, as well as in areas where other coastal States may be entitled to

establish the outer limits of their extended continental shelf in accordance with International Law.

The coast lines and the baselines of other States are delineated on the basis of publicly available data. Throughout this Submission, both the 200 M lines and the median lines are geodetically delineated over the WGS 84 ellipsoid, considering the referred coast lines and baselines of other States.

7. STATE BODY RESPONSIBLE FOR THE PREPARATION OF THE SUBMISSION

This submission, as well as all maps, figures and data bases, were prepared by the EMEPC (Estrutura de Missão para a Extensão da Plataforma Continental/Task Group for the Extension of the Continental Shelf), the State body with statutory responsibility for its preparation, currently under the authority of the Ministry of the Sea. The project was also supported by the *Marinha Portuguesa* (Portuguese Navy), *Faculdade de Ciências da Universidade de Lisboa* (Faculty of Sciences of Lisbon University), *Laboratório Associado - Instituto D.Luiz* (Associated Laboratory – Institute D. Luiz), *Centro de Geofísica de Évora* (Geophysics Centre of Évora) and *Departamento de Geociências da Universidade de Évora* (Department of Geosciences of Évora University), *Instituto Geográfico Português* (Portuguese Geographical Institute), *Fundação para a Ciência e Tecnologia - Ministério da Ciência, Tecnologia e Ensino Superior* (Foundation for Science and Technology - Ministry of Science, Technology and Higher Education).

The surveys within the Galicia Bank Region were conducted in collaboration with the Spanish Scientific and Technical Group for the Extension of the Continental Shelf, which works under the direction of the Spanish Ministry of Foreign Affairs and Cooperation.
