PREFACE	3
1. FULL PAPERS	5
Analysing paleohydrogeologic and paleoclimatic development of Central Europe: a key to mineral water origin in the Bohemian Massif Jiří Krásný	7
Geothermal water in the hard rock terrains of China Zaisheng Han	23
Hydrogeological synthesis of the Bouillante high energy geothermal field (Guadeloupe, French West Indies) Patrick Lachassagne, Jean-Christophe Marechal, Bernard Sanjuan	33
Nature of CO ₂ -rich thermomineral waters from Hercynian granitic rocks (N-Portugal): an overview José M Marques	43
Natural mineral water from the site Bzenica at eastern Kopaonik – "La Fantana", Serbia Gordana Letic, Sibela Nuhovic, Sinisa Radomir, Maja Dinic	57
Thermal waters in Dolna Banya thermal water basin, Bulgaria Boryana Y Deneva	65
Application of chemical geothermal to Tunisian hot springs Badiaa Chulli, Henda Jelassi, Hamed Ben Dhia	77
Water quality change of geothermal water at Heunghae Pohang, Korea during pumping test Byong-Wook Cho, Uk Yun, Yoon-Ho Song	87
Hydrogeochemical characteristics and origin of thermal waters from EGMB (Eastern Ghats Mobile Belt), Orissa, India Madhumita Das, Prem Singh, Subash Mahala, Satyananda Acharya	91
The Amieiro Galego sulphurous spring: characteristics and potentialities Maria Carla Lourenço, Elsa Cristina Ramalho	101
Hyperalkaline mineral water occurrence in the village Skakavci, mountain Maljen (western Serbia) Mirko Cekic, Dragan Milovanovic, Ivan Djokic, Vlade Canic, Gordana Letic, Sibela Nuhovic	113
Mineral and Radon-rich Waters in Hardrock Terrains of Northeastern Bavaria Gerold W Diepolder, Heiko Herold	121
Updating Caldas da Rainha thermomineral waters conceptual model (Central Portugal): a preliminary isotopic (¹⁸ O, ² H and ³ H) approach José M Marques, Henrique Graça, Paula M Carreira, Maria J Matias, Rui C Graça, Dina Nunes	131
A geochemical modelling approach to improve the conceptual model of Chaves thermomineral system, N-Portugal M Rosário Carvalho, Paula M Carreira, José M Marques	145
Numerical flow and heat transport model of Baños de Brea thermal spring in Galicia	161

Javier Samper, Mercedes Bonilla, José Martins Carvalho	
Producing electrical energy from hot dry rocks	
Giovanni Brighenti, Paolo Macini	171
2. ABSTRACTS	187
Multidisciplinary characterization of the structure and functioning of a complex carbo-gaseous mineral aquifer exploited by pumping, prior to its modelling	
Nathalie Courtois, P Lachassagne, Paul Lestrat, B Bourgine, Antonin Genna, Bernard Ladouche	189
Mechanisms for spatial and temporal changes in chemical and isotopic composition in groundwater from a thermal occurrence at Central Portugal (Caldas da Felgueira Spa)	
Manuel JF Morais	193
Chemical evolution of thermal groundwater in the southern Idaho Batholith, USA: Preliminary analysis of field data and laboratory experiments	
Alan L Mayo, David Nelson, Brad Holdaway, David G. Tingey	195
Natural Mineral Water Quality Related to Geology in Korea	
Byeongdae Lee, Ig-Hwan Sung	199
A New Classification of Mineral Waters of Portugal Using Multivariate Data Analysis	
Luís Ribeiro, Carla Lourenço	201
