are study trips a leisure time for students and teachers?

are study trips a leisure time for students and teachers?

1. The study trips are the real opportunity of experiment
the space.

are study trips a leisure time for students and teachers?

2. The study trips are a true landscape experience; they are a remarkable occasion for the drawing development and observation skills.

are study trips a leisure time for students and teachers?

3. The study trips are the occasion for students to become familiar with some particular landscapes

are study trips a leisure time for students and teachers?

4. The study trips involve an authentic occasion to see the sights of the complexity of landscape, to read and comprehend its natural and cultural influences, to reflect and to be critical.

are study trips a leisure time for students and teachers?

5. The study trips are an important help to establishment the international perspective on landscape architecture and garden art.
